

Special Services Enhancement Details List

Id	Name	Description	Related Cases
SESAC Review			
1942	SpS - IEP 7 - User banks for accommodations/modifications	<P>Add Bank Import for Accommodations bank to the IEP 7 Services page (PR07_07-08).</P>	SWOCA, LNOCA 58489, LNOCA 58500
1947	SpS - Progress Report - Progress Field Modification	<P>Modify Progress Report Progress section so that user can enter progress for the multiple report periods (6 or 8). Currently users are not able to key in all the necessary information in the fields.</P>	NCOCC 58561
1949	SpS - Edit Bank - Add 'Return to IEP' button	<P>Add button to the Edit Bank screen, accessed from Bank Import, to "Return to IEP". Other sections of the Bank Import screen have this button, except Edit Bank. Users are forced to click into another section, then click "Return to IEP".</P>	NCOCC 58561
1951	SpS - New Bank - Create Transition Bank	<P>Create a bank for the Post Secondary Transition forms, IEP 4 Postsecondary Transition and IEP 5 Postsecondary Transition Services.</P>	WOCO 58573, LNOCA 58635
1954	SpS - Open Tasks - Remove Page Numbers from Print	<P>Removal of page numbers from the Print of Open Task forms so users can re-shuffle the printed pages without them appearing out of order to the parents.</P>	MEC 58575
1955	SpS - SpEd Events - Automatically remove N/A check	On the Special Ed Events form, if a user marks something as NA and later goes back and enters a date, automatically remove the NA value.	MEC 58575
1962	SpS - Progress Reports - Make Objectives Read-Only	<P>Change objective field on Progress Reports so that it is not editable.</P>	LACA 58579
1966	SpS - New Task - Task Name Year Value	<P>Ability for a district to set the year that defaults into the Task Name field when creating new tasks, with the option to not include a year if desired.</P>	NOACSC 58632, NEONET 58693
1967	SpS - Event Properties - Import Event Dates from DASL	<P>Import the special ed event dates from DASL so that they display in Event Properties and ETR dates will be available to populate on the IEP cover page.</P>	NCOCC 58632
1968	SpS - Workflow - Email Notifications of Upcoming Tasks	<P>Add email notifications to system for upcoming task reminders. In practice, user would receive email notification of upcoming IEP due dates for students.</P>	NCOCC 58632
1969	SpS - Workflow - Update Completed checks on Cover Page	<P>Update the task cover page Completed Page checkboxes with the information from the page completion checkboxes in the task. For example, when the IEP 5 page is marked complete (either on page edit or on Open Tasks), checkbox for 5 on IEP cover page will be checked.</P>	NCOCC 58632
1971	SpS - ETR Cover - Add Adoption Meeting Type	<P>Add ETR Adoption under the meeting type options in on the ETR cover page, currently only has initial or re-evaluation options. Concern that listing the meeting date and marking re-evaluation would cause users to think it was a full re-eval and not just an adoption of a transferred ETR. **Need to obtain ODE approval to make this change.**</P>	NEONET 58643, NEONET 58654
1981	SpS - Open Tasks - Auto-create Optional Form Pages	<P>When adding Optional Forms to a task, either at task creation or through 'Add a Form', automatically create the pages. Would like the Optional Form pages to create just like the pages for the Required Forms so users do not have to add the form and then create a page.</P>	NCOCC 58721
1983	SpS - PR-02 - Auto-populate Parent Address	<P>Automatically populate the PR-02 Parent Invitation with the primary and/or secondary parent's name and address. Users would need the ability to indicate for which parent to create the form.</P>	NCOCC 58746, SWOCA 58742
1986	SpS - Student Properties - DASL District of Service	Add update functionality to District of Service ID from DASL to convert '*****' to the default school IRN. In DASL, if DOS is the same as the home district, users select '*****' and not the actual IRN value. In SpS, the students with the '*****' show as blank in the District of Service instead of the appropriate district.	HCCA
1990	SpS - New Task - Task for Blank Student	Ability to create task for a blank student (student not yet in SpS) and then transfer task to the student record once they are entered. This will address the issue with new students who may not yet be in SpS due to paperwork issues getting student entered in SIS but need to get forms created for compliance issues. This will also address issue with summer IEPs where integration is not yet turned on to have student display in SpS.	SESAC, PBUG, Training

Special Services Enhancement Details List

Id	Name	Description	Related Cases
Admin (Setup/Security)			
1614	SpS - Security - Create New Level	Add additional security level which ITCs/districts can use at their own discretion.	SESAC D20
1665	SpS - Admin Homepage - Remove PA Security	Remove Assign PA Security from SSEM Admin Homepage as functionality no possible with SSEM. Also remove PA security levels from options.	SESAC D21
1669	SpS - Security Roles - Select All in Grid View	Add Select All options to Security Roles Grid View. Then can remove other Security Roles screen.	SESAC D19
1672	SpS - SpS Link - Add Insufficient Security Message (S1956)	<P>Addition of "Insufficient Security" message to replace the error page when a user with no SSEM access clicks the Special Services link from ProgressBook.</P>	SESAC D1
1677	SpS - Security Levels - New Grid View	Create gridview of security levels similar to security roles gridview currently on the admin screen. Include "select all" option on the grid to add all the privileges under a level.	SESAC E9
1686	SpS - Security - Multi-District Access	Ability for users to access information from multiple districts under one user login (e.g. ESC personnel with students from multiple districts). Currently users must log out and log back in multiple times to work on forms for their students.	SESAC A5
1941	SpS - District Bank - Screen display on Low Resolutions (S1957)	<P>Adjust the screen for District Banks so users running 1024x768 on narrow screens are not seeing the bank grid display beneath the menu items. also case 58810 for NCOCC <B id=633874017405136919>Edited by Laura Turner on Tuesday, September 01, 2009 at 7:35 AM</P>	LACA, NEONET 58534
1974	SpS - New Task - Parent Invitation	<P>Creation of a new task, Parent Invitation, with the PR02_00 Parent Invitation required and the PR02_01 General Invitation optional. Parent Invite page would create upon task creation (as required forms behave in the app). Many districts have secretaries doing the invites, but to create them it appears they are owning the IEP or ETR tasks the invites were created for, thus causing confusion in districts.</P>	NCOCC 58652
Backend (DB)			
1683	SpS - DASL Integration - Secondary Contact	<P>Create integration of secondary contact field from DASL onto existing forms with second parent field. Dependant on secondary contact field being exported from DASL which was requested on CAU 683670.</P>	SESAC G8
1844	SpS - Database - Add Index to studentformaudit table	Add index to the studentformaudit table. Need to have table set to allow shrink commands to run properly so wasted space is not being allocated to the table increasing db sizing.	NCOCC 57882
1932	SpS - New Table - Add record for Save Lost/Locked	Create a new log table to record for save lost messages, when two users open same form - one saves and one loses the save. Include User ID (lost save), Date/Time, IP Address, Message Received. Also record same information for users who lose save because another user has locked the form.	LACA
Closed Tasks			
1523	SpS - Audit Log - Create Audit Log	Create a running log, viewable on the Closed Tasks screen, of who accesses a finalized task and when (date and time) the task was viewed.	SESAC A6
1670	SpS - Task Name - Security on Edit function	Change security on Edit Finalized Group (Task) name to grant access to make change. Do not want all users to be able to rename finalized group.	SESAC D12
1673	SpS - Student List - Show only Students with Forms	<P>Ability to show only the students with finalized forms (tasks) for Level 100 users when the access SSEM (View Forms page).</P>	SESAC E4
1682	SpS - Include EMIS Flag - Remove from Other Sets	Remove the finalize form flag section from Other sets to avoid confusion with "turning off/on" report of EMIS as Other sets never report to EMIS.	SESAC H1

Special Services Enhancement Details List

Id	Name	Description	Related Cases
1953	SpS - Closed Tasks - Change to Completed Tasks (S1959)	<P>Change "Close Task" button on Open Tasks to "Complete Task" to align with users marking pages "Completed" and ODE reference to "complete" sections. Change "Closed Tasks" screen label to "Completed Tasks". Change "Closed Tasks" report to "Completed Tasks" report.</P>	MEC 58575, NCOCC 58561, TCCSA, LACA
D2D Transfer			
1610	SpS - Contacts - Create D2D Contact Section	Add section for D2D Contact Information allowing users to search for districts to obtain contact info and Special Services usage status.	SESAC D17
1611	SpS - Transfer - Create Batch Transfer	Create Batch Transfer for D2D allowing districts to perform a batch transfer to another district. For example, home school to JVS or preschool to home school.	SESAC D33
1612	SpS - Transfer - Retransfer Deleted Sets	<P>Ability to retransfer a form set to a district after the previous transfer of that set to that district has been deleted. Currently, users must alter the form name prior to making the second transfer as original shows deleted status on D2D webserver.</P>	SESAC E15, 54003
1613	SpS - Districts - Search by City	Add City option to the boolean search when selecting district.	SESAC D6
1615	SpS - Import - Select/Unselect Student	Add ability to select/unselect a student on the Import Student Forms page. Currently, no way to unselect a student, only select a different student or leave the page.	
1616	SpS - Transfer - Select All Activates Next Button	Ability to active the "Next" button when checking Select All box. Currently checking the forms individually activates the button, but Select All does not.	
1617	SpS - Transfer - Set without Shared Data	Ability to transfer/import a finalized set that does not contain shared date (eg. EMIS data, data shared between forms). Currently transfer is successful, however importing that set errors for receiving district. Need to correct system so that importing a set via D2D is not dependent on the set containing shared data (spstudentfinalizedselectedlov).	TCCSA 739614
1618	SpS - Districts - Activate Go Button with Enter Key	Ability to press Enter key on keyboard to start District search instead of using mouse to click the Go button. Other screens in ProgressBook allow Enter key to active Go button.	SESAC D5
1653	SpS - Import - Import IEPs as IEP Sets	Change the import of IEP/EMIS Sets from other districts to import as IEP/EMIS Sets. Since users can now mark IEP sets as false, then it would exclude the set from the EMIS Tools. Suggest importing as an IEP/EMIS Set already excluded from EMIS.	
Documentation/Help			
1904	SpS - Help - Add link to ODE Resources (annotations)	Users requesting link in Online Help to direct them to the annotations or other documentation on ODE's resource website (www.edresourcesohio.org).	NOACSC 58313
EMIS Tools			
1599	SpS - EMIS Report - Export as CSV File	Add option to EMIS Report to allow users to export as CSV file.	SESAC G6
1602	SpS - Process Extract - Add Extract File Path	Add extract file path to the EMIS Transaction Log. Will be especially important if the Download Process for EMIS Extract story gets completed.	SESAC
1603	SpS - EMIS Tools - Change Security	Change security for the EMIS functionality so that the access can be granted by the individual icon, not just the entire feature: Level 500 - All EMIS, Level 510 - EMIS Review Report, Level 520 - Build EMIS Extract, Level 530 - Process EMIS Extract/View Log.	SESAC D30

Special Services Enhancement Details List

Id	Name	Description	Related Cases
1604	SpS - Process Extract - Change Location to Local User Machine	Change the Process EMIS Extract functionality to set it up for local user (on Local Machines usage) instead of at the ITC server level. Want the ability to download the extract instead of clicking the process EMIS extract and the file getting automatically moved to the EMIS folder on the server. Users importing extract file into DASL will not have access to the ITC server to access the extract file. Current work around is to simply display the extract file, choose File-Save As. However, this provides no log as to who has accessed this file.	SESAC
1643	SpS - Process Extract - Add Run Date/Time	Add run date/time to the Process Extract screen so users when running for individual students can tell which one they ran last. Makes it easier when correcting multiple individual students to see which is the most current one you are working on instead of continuously jotting down student EMIS IDs.	
1654	SpS - EMIS - Update Primary Key on spsLovGroup Table	Update the Primary Key field on the spsLovGroup table so that it is no longer auto-incrementing. Also, update the values of the field for each record so they are consistent across the state.	
1715	SpS - Extract Error - Add PS/Disability 16 Error	Generate an extract error if disability condition is set to '16 - Developmental Delay' and student grade level not set to grade level mapped to 'PS'. Disability 16 only valid for preschool students. (FD Record).	
1720	SpS - Extract Error - Add Alt Assess Testing Error	Generate extract error if Alternate Assessment is marked as the Type of Test in one subject, but not all test subjects. If ALT is selected for one, it must be selected for all. (GX Record). [Be sure to check if the test is being taken as not always taking all five subjects].	
1780	SpS - EMIS Extract - Reference to Student Names	Customer requesting ability to have student names added to the EMIS Extract file. While this isn't currently possible as the format is dictated by the EMSRX file layouts, look into ways to help users identify student names from the numbers. EMIS numbers are often kept confidential so they aren't any easy search feature.	SCOCA 57500
1781	SpS - Extract Error - Add IEP Effective Year Check	Add EMIS Extract Error check to confirm the IEP does not exceed an IEP year which is one year minus one day. For example, an IEP effective 02/20/2008 - 02/19/2009 would be valid but an IEP effective 02/20/2008 - 02/20/2009 would not and would generate an error. An IEP can be in effect less than a year, but never longer.	
1782	SpS - Extract Error - Add Service Dates Year Check	Add EMIS Extract Error check to confirm the IEP Service Dates do not exceed an IEP year which is one year minus one day. For example, a service effective 02/20/2008 - 02/19/2009 would be valid but a service effective 02/20/2008 - 02/20/2009 would not and would generate an error. Services can be less than a year long, but never longer.	
1848	SpS - EMIS DCF - Adjust Test Date, shows Month/Year	Make sure the FY10 EMIS DCF does not display 'Month/Year' for the Date of Test as we only display the month and the system calculates the year.	
1862	SpS - EMIS Extract - Create Monthly Extract File	Ability to run the EMIS Extract on a monthly basis. User would like run report by month to pull just the IEPs finalized during that month, regardless of the IEP effective dates. This would provide districts the ability to roll the event date, disability code, LRE and any related services monthly in DASL; which would greatly simplify the process for districts that write spring IEPs that are effective the following school year.	OMERESA 57957

Forms/Page Edit

1579	SpS - Progress Report - Create Six (6) Column Progress Report	Create a six-column progress report for both the horizontal and vertical goal pages for districts using six-week reporting periods.	SESAC A26
1580	SpS - Progress Report - Create Eight (8) Column Progress Report	Create an eight-column progress report for both the horizontal and vertical goal pages for districts using four reporting periods/four interims for special education reporting. What happened to the 4-8 columns for the reporting periods? Are they supposed to make a new Prog report for each one? <B id=633861245792157332>Edited by Laura Turner on Monday, August 17, 2009 at 12:49 PM 	SESAC A27
1623	SpS - ALL Forms - Expand Age Field	When revising forms containing the age field, expand the textbox width to allow for future development of the age field to display years and months.	
1676	SpS - New Form - Add 504 Plan	Add 504 Plans to the system so the forms can be completed online and, after finalization, icon will appear on teacher dashboard.	SESAC F9

Special Services Enhancement Details List

Id	Name	Description	Related Cases
1861	SpS - WEP Form - Modify per District Designs	<P>Requesting the district WEP form be implemented in Special Services as a default form.</P>	MDECA 57994, Harris Northwest
1944	SpS - SpEd Events - Enlarge Outcome ID field (S1958)	<P>Enlarge Outcome ID field on the Special Ed Events page to allow entire description to display, currently cutting off end of description.</P>	SWOCA 58489
1952	SpS - Progress Report - Wording Correction (S1952)	<P>Correction to wording in parent section to read "...should you have any questions..."</P>	WOCO 58574
1957	SpS - ETR 1 - Larger Summary of Assessment field	<P>Ability to key more information into the ETR 1 Summary of Assessment field. Creating a two page ETR 1 page available to districts along with an ETR attachment page.</P>	LACA 58579, LNOCA 58631, MVECA 58692, NOACSC 58692

Open Tasks

1640	SpS - Pages - Copy Data ETR to IEP	Ability to pull information for the PR07P1 IEP cover page from the PR06P1 ETR Part A to prevent rekeying of information on pages.	SESAC C11
1641	SpS - Pages - Attachment Page Link	Ability to click from an initial form to get the attachment page directly from that initial form. Currently, the user must close the initial form, return to the homepage, create/name the attachment page and resume typing.	SESAC A18
1642	SpS - Pages - Copy Accommodations Services to Testing	Ability to pull Accommodations for the IEP 12 Testing page (PR07_12) from the IEP 7 Services page (PR07_07). Only accommodations on the services page are valid on the testing page per state operating standards.	SESAC A15
1663	SpS - Pages - Open All Forms in a Task	Ability to open all forms in a task at one time and be able to modify them instead of opening/closing each one individually when moving to another.	SESAC F10
1675	SpS - Pages - Create District Page Template	Ability to create a template of a page that can be shared across multiple students and that can be accessed during Create from Existing. Want to give teachers access to a "model" completed page.	SESAC G5
1684	SpS - Student List - Search by District	Ability to search by entire districts instead of being required to select the building before searching for the student. This would be for users with district-wide access.	SESAC F3
1707	SpS - Open Tasks - Create Form Audit Log	<P>Requesting audit of proposed forms to see when form was created, edited, and completed. Requesting audit by form within the Open Task.</P>	MDECA 57145
1710	SpS - ALL Forms - Add "Proposed" Watermark to Forms	Add watermark to proposed forms indicating the forms are proposed through Print Option only. Essentially users would like Print (regular) and Print with Watermark. If it is not possible to provide two print options, then group would prefer no enhancement as there can be no watermarking standard in application.	Revere; NEONET 57532
1815	SpS - Effective Dates - Indicator when student turns 16	Set system to have the IEP 4 PostSecondary Transition page somehow automatically pop up when a student turns age 14 during an IEP year. Then, set to have the IEP 5 PostSecondary Transition Services page somehow automatically pop up when a student turns age 16 during an IEP year. Possibly set to flag all IEPs with students turning age 14/16.	NOACSC 57772
1837	SpS - Open Tasks - Ability to save form order	<P class=MsoNormal>Ability for the user to reorder the forms within a task on the Open Tasks screen for Printing and Closing Task. Once the user modifies the order for a specific task, it would stay in that order each time the user opens the task.</P>	HCCA 57886
1842	SpS - Open Tasks - Last Name Search field for Classes	<P class=MsoNormal>Districts would like teachers to have the option to search for a student by last name like administrators can rather than having to scroll down from the drop down list.</P>	MDECA 980828
1914	SpS - Open Task - Ability to Rename a Page	Ability to rename a page from the Open Task screen. Currently rename a page functionality only on the Page Edit screen.	LACA
1915	SpS - Open Tasks - Move Header Outside of Grid	<P>Move Header row outside of grid on Open Tasks screen so that as the user scrolls the header information will remain on the screen.</P>	Training

Special Services Enhancement Details List

Id	Name	Description	Related Cases
1961	SpS - Open Tasks - Auto Create Progress Report Tasks	<P>Ability to auto create progress report tasks from IEP tasks. Suggesting adding option to Complete Task action for IEP Tasks so that corresponding PR Task created.</P>	NCOCC 58561
Properties (Student/Event)			
1910	SpS - Student Properties - Gray Out DOR/DOS	<P>Gray out the District of Residence and District of Service in Student Properties for districts that integrate this information from the SIS. The values would still show, however the users (teachers) would not be able to make the change, For districts that do not integrate this information, make security setting that could be turned off/on so districts could restrict changes in this area to just admins or open to teachers.</P>	LACA
1920	SpS - Student Properties - Add Surrogate Parent Info	Add surrogate parent information to student properties so values can be populated on the forms where applicable. Also, would like to integrate this data as much as possible with the SIS.	TCCSA demo
1937	SpS - Event Properties - Replace Spec Ed Event Page	Create Event Properties, like the Student Properties, that handle the data from the Special Ed Events page. This will replace the Special Ed Events page, thus removing it from each of the tasks.	SESAC
1973	SpS - Student Properties - DOR/DOS display order (S1963)	<P>Reorder the DOR and DOS drop down list values in Student Properties to display in alphabetical order by district name and not numerical order by IRN.</P>	HCCA 58653
Reports			
1588	SpS - ALL Reports - Export as CSV Files	Ability to export all reports from Special Services as CSV files.	SESAC G7
1589	SpS - New Report - ETR Due Date Report	Create report to display student info and their ETR due date. The ETR Due date is 3 years minus one day from the IETR/RETR event date and the TETR end date. Will need to consider scenarios when there are multiple ETR events for a student, would only need the one per student.	SESAC A14
1590	SpS - New Report - Special Ed Student Report	Create report to display demographic data for Special Education students including address, phone, etc.	SESAC A21
1591	SpS - New Report - Viewed Forms Report	Create a report to display who has read which finalized IEP, who hasn't read the IEP (from those who are teachers to the student that year). Create a running log of who has accessed a form and when (date/time).	SESAC A6
1592	SpS - Choose Report - Add Class Field	Add Class field to the reports so users with teacher access can run the desired report for their class(es) in addition to building and student. Include an "All Classes" option for teachers desiring to see the report for all students in any of their classes.	SESAC A7
1593	SpS - Choose Report - Add District Field	Add district option to the reports so users with district-wide access can run reports for entire district. Users would like to look at reports from a district-wide basis, for example, all students with XX disability to see in which buildings they are enrolled. Help districts staff better manage their student population.	SESAC A22, Wickcliff demo
1594	SpS - Choose Report - Security Restrictions	Restrict securities on the Choose Report screen so that users can only run reports based on their securities for Special Services. If the user is a teacher, they should only be able to run for their classes. If the user is a building admin, they should only be able to run for the buildings in which they have access rights. Possibly even for the case management classes in that building(s). If the user is a district admin, they should be able to run for the whole district as well as buildings within a district. Possibly even for the case management classes in those buildings.	SESAC A22
1595	SpS - Choose Report - Include/Exclude Inactive Students	<P>Ability to check to include/exclude inactive students from all reports. An IEP may have been created when a student was active, but once they leave the district usually they shouldn't be included in reports. We do not want to permanently exclude inactive students as they may be attending parochial schools and may need to be added to reports from time to time.</P>	SESAC B5
1597	SpS - New Report - Build Your Own Report	<P>Create new report giving users the ability to build custom reports selecting fields from various forms. Also allow saving of custom reports by user so they do not have to rebuild each time. This would cover IEP At A Glance requests.</P>	SESAC C2

Special Services Enhancement Details List

Id	Name	Description	Related Cases
1598	SpS - ALL Reports - Date Field Formatting	Correct date formatting so 1/1/2008 is treated like 01/01/2008. Currently 1/1/2008 is sorted on reports with the Octobers and doesn't produce clean or effective reports.	Training
1605	SpS - Class Print - Set Merge Order (S1954)	Set definite order when merging forms for multiple students. returns results in quickest manner, which can vary with each merge. Suggest order by student name. On Class Print selection screen, desire to have forms order by student name (last, first). On the merged forms, again group by student and order by instance.	MVECA 56962
1606	SpS - Class Print - Remove Page Numbering (S1955)	Remove page numbering from merged forms. Page numbers apply to the merged set as a whole yet only portions would ever go home to a particular student.	
1681	SpS - Class Print - Print Current Finalized IEP	Ability to print the current finalized IEP set for all, or selected, students in a class through the Class Print.	SESAC H9
1855	SpS - New Report - Progress Reports Complete for Admins	Users requesting a report that Administrators could run to see when Progress Reports have been complete. This wouldn't indicate when they were sent, but more when they were completed for each reporting period. Users suggested a check that could be marked each quarter to note student's PR are done, especially if PR Task left open for entire IEP year. Report would come in three variations: completed progress reports, uncompleted progress reports, and everyone with their completion status.	LNOCA demo
1919	SpS - Reports - Ability to Blank Out Selected Student	Ability to blank out Student Name field after selecting a student when running reports.	Training
1960	SpS - Reports - Print Blank Forms (S1964)	<P>Ability to print a blank forms, without student info or page numbers, from SpS.</P>	NCOCC 58561

Setup (User)

1620	SpS - Preferences - Create Demographic Preference	Ability for users to set preference of their demographic data to populate onto the pages they completed (eg. name, title, school address, phone number, email address, location, etc).	SESAC A1
1621	SpS - Preferences - Create Report Settings Preference	Ability for users to set preference on the report options they normally use. This would include EMIS Tools Report Selection screen including data range and which fields to view.	SESAC A1
1622	SpS - Preferences - Create Age Display Preference	Ability for users to set preference on how the age displays on the pages they create to reflect years and months on preschool students (eg. 3.6 is three years six months) or just years for school age. Would like note on forms to include age "as of" date.	SESAC A11
1627	SpS - New Bank - Create ETR Assessment Bank	Create a bank for the ETR 1 Individual Evaluators Assessment page (PR06_01) for use with the Summary of Assessment, Description of Educational Needs, and Implications for Instruction fields. Bank could also be used on the ETR Attachment Page (PR06_08).	SESAC B9
1628	SpS - New Bank - Create ETR Basis of Eligibility Bank	Create a bank for the Basis of Eligibility field on the ETR 4 Eligibility form.	SESAC C1
1629	SpS - Bank Item - Set Bank Item Order	Ability to set an order for the items in the banks like users are able to do for the categories in the banks.	SESAC C4
1630	SpS - New Bank - Create ETR SLD Bank	Create a bank for all fields on the ETR 3 Specific Learning Disability (SLD) form (PR06_03); all fields would share the same bank.	SESAC C6
1631	SpS - Banks - Share Banks Between Users	Ability to share banks from one user to another like the PB lesson plans. Allow all users to copy banks shared by another user.	SESAC E7
1632	SpS - Banks - District Banks	Allow security level based user to create district bank that can be shared with all users. This would prevent districts need to assign PB Admin access to users so they can build a district bank.	SESAC E7
1633	SpS - Bank Item - Add Indicators at New Item	Ability to access the indicators when building bank items instead of just when adding bank items to the pages.	SESAC B13

Special Services Enhancement Details List

Id	Name	Description	Related Cases
1636	SpS - Bank Indicators - Omit StandardBenchmark	Change insert of indicators to just include the indicator and not the standard, benchmark, etc as well. May want to make this configuration a user preference item to set per user.	SESAC A13
1916	SpS - Banks - Autorefresh Bank Items	When closing the Bank Item screen, from Setup-User Banks, automatically refresh the list of category items instead of needing to click 'View Items' link beside category to refresh Item list.	Training
1917	SpS - Bank Item - Autosave with Next or Previous Button	Autosave information keyed on Bank Item screen when clicking on Next or Previous buttons to look at additional items.	Training

Task Queue

1911	SpS - Task Queue - Ability to Rename a Task	Ability to rename a task once it is created. Make the ability to change a security based setting so that Gen Ed type users could not be able to do so, but Spec Ed users/Admins would be able to make the change. NCOCC 58632 - Users want to be able to adjust the name of the closed IEP to include the IEP date in the name or do so at closing. <B id=633863901865584758>Edited by Laura Turner on Thursday, August 20, 2009 at 2:36 PM 	LACA
1923	SpS - Task Queue - Filter out Progress Report Tasks	<P>Ability to chose to show or not show Progress Report Tasks on the Task Queue screen. Depending on the users caseload, these tasks to overload the screen causing it to become useless.</P>	
1928	SpS - Task Queue - Default Filter to 90 days	Change default date filter on Task Queue to 90 days instead of 30 days.	SESAC
1929	SpS - Task Queue - Add Filter Options	Add dropdown list for Task Queue filtering for 30 days, 60 days, 90 days, etc in addition to the custom date filter currently available. Set default to 90 days.	SESAC
1930	SpS - Task Queue - Task Priority Set by Admin	Ability for Administrator to mark a task as priority in an end user's queue. Feature should be able to be turned on/off at the district.	TCCSA

Workflow

1856	SpS - Workflow - Reminder DOR Invites	<P>Reminder in workflows for user to send General Invitation to the District of Residence when user district is not the DOR. Prompt within the task that this form would be required for this particular student.</P>	LNOCA demo
1921	SpS - Workflow - District Set End Date Thresholds	<P>Ability for districts to set end date thresholds on tasks. If district wants all tasks completed 2 weeks (for example) before the due date, they can set that threshold at the district level and users would be prompted accordingly. Would also flag user tasks in the Task Queue based on the threshold, though it would not automatically move them from priority/non-priority.</P>	TCCSA demo
